A majestic fantasy world awaits you. Draematia, a mountainous country, is a land full of beautiful scenery, abundant with evergreen forests and hidden lakes, with the shape of a triangle, and with the mountains dotted on it like puzzle pieces. Lingored, as the name sounds, is a country made up of the ancestral relics and frontiers of three countries: the land of the Elden, the Land of the Elden Kings, and the highlands of the Land of the Seven Evils. Before the Great War, the Land of the Seven Evils, the Kingdom of Lehr, and the Empire of Genti belonged to the same territory. The war that ensued was a fierce conflict, and it resulted in a final breakdown. After some time, the three countries separated into individual countries. Then, the Kingdom of Lehr, the Land of the Elden, and the Empire of Genti became the land of the Elden, the Land of the Elden Kings, and the Land of the Seven Evils, respectively. The following is the history of the three countries. THE HISTORY OF LAND OF THE ELDEN Ever since the continent of the Elden was made the top-priority territory on Earth, the power of the Elden Ring and the crown of the Lands Between have been elevated. In the beginning, the power of the Elden Ring was one among the five powers that constituted the world, and the Lands Between was one of the five frontiers of the world. However, following the Great War, the power of the Elden Ring was toppled and the Lands Between became a location to exile exiled nobles, and so it became a dangerous place. Most of the countries of the Lands Between fell into chaos.
